### PA NEW OBSERVES

New Castle's display of hollyhocks is in full progress at the present time. Weather conditions seem to have been quite beneficial to these plants, and the number of blooms is exceedingly large.

Work of removing the street car rails on Washington street is nearing completion. Normal traffic has been resumed on some sections of the street, the rails being up and the trenches filled with concrete.

Pa New is informed that weather conditions so far this summer haven't been very conducive to enjoyment on the part of those who have cottages along the lakes. It has been too moist and cool.

Mowing lawns is a greatly increased duty this summer, due to the abundance of rain that has fallen in this city. But the lawns have certainly been benefited and look as green as in early spring.

### Diplomatic Deadlock Over French Squadron Located At Alexandria

By KINGSBURY SMITH  
(U. S. Staff Correspondent)  
WASHINGTON, July 11.—A diplomatic deadlock today appeared to be developing between Vichy France on the one hand and Great Britain and the United States on the other concerning disposition of the demilitarized French naval squadron at Alexandria.

Vichy has notified the United States it is unable to authorize removal of the French war ships from Alexandria to American or British ports.

The French government has suggested the warships be permitted to proceed to a French port with the understanding that they would not be turned over to the Axis. Great Britain refuses to agree to this move.

Will Likely Remain  
As a result, it is expected the French warships will continue to remain in Alexandria. If the Axis forces of German General Field Marshal Erwin Rommel should break through the British desert defenses and threaten to occupy Alexandria, the problem of the French naval squadron is seen likely to create a new crisis in Anglo-American relations with Vichy.

In such an event, it is believed the French warships will be turned over to the Axis.

### Record Number Of Recruits To Leave On Monday

In what will probably be the largest send-off for volunteers ever to be held in New Castle, approximately 40 men will leave from Pennsylvania station Monday in a joint Navy-Marine departure. There will be 15 Navy recruits, and at least 25, possibly 25, Marine volunteers.

Present plans are to have the regular ceremonies by the Service Men's Aid Association.

The largest previous volunteer group to leave the city in June, was the 24 recruits of Navy week.

Federal Judge William F. Smith declined to accept a plea, pending appointment of counsel, and remanded the prisoner to Hudson county jail without bail.

Spectators line the streets outside the department of justice building in Washington, trying to catch a glimpse of the eight accused Nazi saboteurs, departing in heavily-guarded "black maras" after a day's session before the military commission which is trying them. WASHINGTON, July 11.—Testimony developed in the military trial of the eight German saboteurs landed in this country by Nazi submarines today linked two of the prisoners to the New York radio spy ring broken up by the FBI more than a year ago.

With the seven-man military commission sworn to secrecy for what now promises to be a prolonged trial, it could not be learned which two of the eight were involved.

However, it became known, as the spy trial entered its fourth day, that part of the sabotage plot stemmed from operations of a ring of Nazi informers who relayed in (Continued On Page Two)

MOSCOW, July 11.—A German infantry division, supported by 100 tanks, has managed to cross the Don River in the neighborhood of Voronezh but the main German forces still are being held on the west bank, it was declared today.

(A German infantry division numbers between 15,000 and 20,000 men.) With tanks and planes preceding them and a heavy German artillery barrage from siege guns on the western—or higher—bank of the Don covering their advance, it was considered likely that the Germans had penetrated into some sections of Voronezh.

As the bill now stands, personal income tax rates are six per cent, and surtax rates begin at 13 per cent, instead of the 12 per cent previously adopted.

The committee also voted extra exemptions for persons in the armed forces, which will have the effect of excluding lowest ranking army and navy enlisted men from having to pay any federal tax on their government pay.

# U. S. Aerial Power Steadily Growing

## Forcing Japan Upon Defensive

American Arms Playing Important Part On Several Fronts At Present

### MAKING PROGRESS ON CHINA FRONT

By JOSEPH A. BORS  
(U. S. Staff Correspondent)  
WASHINGTON, July 11.—Reports from various war theaters indicated today that American aerial might gradually is forcing Japan more and more on the defensive in the air in a number of areas and that this nation's sky offensive will gain momentum against Germany and Italy as well from now on.

With American aircraft production heading toward the 60,000 plane goal set for this year by President Roosevelt, the feeling persists in official circles that speedy delivery to strategic fronts may change the entire war picture within the next few months.

Despite the ominous situation on the Russian front and the still undecided battle for Egypt, American arms, especially aircraft, are playing a vital part in keeping the Axis from making even greater gains before reinforcements and more supplies reach the war fronts in decisive numbers and amounts.

One of the best examples of America's growing aerial power is being furnished by the newly created U. S. Army Air Force in China, where bombers have been blasting Japanese airfields and bases.

**Turning Point**  
Advices from the front quoted Brig. Gen. Clair L. Chennault, American air chief in China, as asserting that "the turning point" has been reached in air operations that the Japanese are being forced on the defensive in that area.

Chennault is the noted flyer who organized the famous American Volunteer Group to protect the Burma road. Most of the AVG, which took a heavy toll of the Japanese early in the war, now are in the U. S. air forces and are participating in the offensive in China.

Most of these airmen have made no secret of the fact that their greatest aim is to repeat Brig. Gen. James Doolittle's raid on Japanese cities, which occurred April 18.

Another great aerial offensive against Japan has been under way in the southwest Pacific, where United Nations forces under Gen. Douglas MacArthur have stalled Nippon's invasion thrust toward Australia for months.

**In Australia**  
While news from Australia has been overshadowed by developments in other war theaters, some military observers believe that the air forces in that area have accomplished a miracle against a numerically superior enemy.

In the Aleutians, also, the Army air force, aided by submarines, has been taking a heavy toll of Nipponese invaders occupying the American islands of Attu and Kiska at the extreme western tip of the archipelago.

Nowhere has America's potential aerial striking power been demonstrated with better effect than in the recent battles of the Coral sea and Midway Island, in which a total of nearly 60 Japanese warships and auxiliary vessels were sunk and damaged.

Just how great the Japanese losses were at Midway is expected to be told shortly when the Navy issues its final summary on that action.

Both carrier and land-based planes cooperated in smashing the Nipponese invasion armada off Midway.

U. S. pilots already have bombed German-occupied Europe, and there is every promise that before long, waves of U. S. Army planes will be blasting Nazi cities and military objectives in cooperation with the Royal Air Force.

## NAZI FORCES ARE MAKING PROGRESS IN RUSSIAN DRIVE

(Continued From Page One)

mand claimed that Voronezh already was in German hands, but there was no Soviet confirmation of this claim.)

These forces, estimated at 1,000-2,000 men, at least 1,000 tanks and an equal number of planes, are being severely hammered and prevented from sending reinforcements across the vital waterway, it was stated.

### Flank Attacks

Savage Soviet flank attacks northward of the Kursk-Voronezh wedge have forced the enemy back on the defensive.

It was conceded earlier that Nazi spearheads were making progress in their triple-pronged offensive pointing toward Rostov, northern gateway to the oil-rich Russian Caucasus.

Pierce and bloody fighting was reported before Voronezh, while 110 miles to the south the Nazis occupied Rostov and drove ahead to smash defense lines at Kani-morovka, 45 miles farther south. The third Nazi spearhead perched Lisichansk on the Donet river, 140 miles northwest of Rostov.

The vital Moscow-Rostov railway, chief supply line for Marshal Semion Timoshenko and sole north-south line still remaining in Russian hands, met at Rostov.

### Great Wedge Driven

The new German thrusts drove a great wedge between the Soviet central and southern armies.

The sudden blow at Lisichansk, which presumably started from the Izum-Barvenkovo sector, south of Rostov, virtually expelled the last Russians from the fertile lands of the Ukraine.

Soviet troops on the Voronezh front were credited with recapturing four villages yesterday in a sudden flank attack.

The newspaper Red Star conceded that the Germans are "developing success in their offensive" following capture of Rossosh, strategic town on the Moscow-Rostov railway about midway along the 200-mile battle line at Rostov.

"Fierce battles are taking place beyond Rossosh," Red Star said.

The development of a third spearhead by the Nazis south of Rossosh brought Hitler's tank squadrons to within 140 miles of Rostov, gateway to the Caucasus.

German forces which succeeded in crossing the Don river near Voronezh are "finding progress difficult," Red Star said.

### Fighting Area Spreading

"However, the area of fighting west of Voronezh is spreading," the army organ disclosed.

"Enemy attempts to outflank positions on the southwestern and northern sectors of the Voronezh front were defeated," it was added.

The mid-day communiqué of the Soviet high command said that Russian forces continued to engage the enemy "west of Voronezh, in the neighborhood of Kantemirovka and in the Lisichansk direction."

The third Nazi thrust of the three-pronged offensive was made in the Lisichansk area, 140 miles northwest of Rostov, as the Russians retreated from Rossosh, 100 miles to the northeast, and the Soviet defenders gave ground slowly in the furious battle of tanks and planes before Voronezh, 110 miles north of Rossosh.

Developments of the rapidly unfolding Nazi offensive substantiated earlier beliefs that the main objective of the Germans was the oil fields of the Caucasus.

**Rossosh Evacuated**  
An official communiqué revealed that Russian forces had evacuated strategic Rossosh, on the vital Moscow-Voronezh-Rostov railway 20 miles west of the Don river, before a Nazi onslaught.

The communiqué disclosed that the Germans continued on the offensive in the middle sector of the 200-mile long Ukraine front and were battling the Russian defenders in the vicinity of Kantemirovka, 45 miles south of Rossosh.

The situation before Voronezh, immediate objective of the Germans at the outset of their force mechanized drive east from Kursk, grew increasingly grave as the Nazis struck against that important rail junction from two bridgeheads established on the east bank of the Don river.

Despite the fact that the Moscow-Rostov railway probably already has been cut at Rossosh—the prime objective in the initial onslaught against Voronezh—the Nazis pressed the fight before Voronezh without respite.

The main drive toward Rostov and the Caucasus apparently was developing, however, from the Kantemirovka and Lisichansk sectors.

## NAZI SABOTEURS LINKED TO RING

(Continued From Page One)

formation back to Germany through a short-wave radio station on Long Island.

### Ring Broken Up

The radio spy ring was broken up by G-men, and many persons involved in it are now in jail. It was disclosed that it was at this time that the FBI first learned of the pro-Nazi sympathies of the two saboteurs, who, with their six conspirators, now face hanging or the firing squad.

While the trial was held in a doubly-barricaded room on the fifth floor of the Justice Department in Washington, it was reported that much of the time was spent in legal argument.

News that the trial, which had expected to be ended in about a week, would be prolonged, is definite. A formal statement by the military commission said:

"Cause for both sides stated to the commission that the great volume of evidence to be introduced was expected to prolong the trial."

The three army officers who have been assigned to defend the confessed saboteurs are waging a bitter fight. They are Col. Cassius Dowell, Col. Kenneth Royall and Col. Carl L. Ristine.

The confessions of the Nazi spies went into the trial record over the objections of the defense. The defense, it was reported, is offering one objection after another, disputing every bit of evidence, in the hope to establish grounds for some future appeal, possibly to President Roosevelt.

## LINKING U. S. AND ALASKA

**S**URVEY of a railroad right-of-way from the United States to Alaska, now well under way and which will result in a rail carrier system to the far northwestern territory, will provide a four-way approach to a land rich in resources and invaluable strategically in the defense of America. Contact is now by sea and by air. The motorway and the railway soon will supplement them.

The United States has lacked sufficient interest in the past to press for more satisfactory communications with Alaska. Canada was lukewarm when projects requiring right-of-way through the Dominion were suggested. Now all barriers have been lowered by the urgency of defense. "Seward's Folly" is no longer to be remote and isolated.

The airplane has been responsible for the little development that has been accomplished in Alaska. It will continue to be the connecting link between rail and highway terminals and ports. As the movement of freight by air progresses, Alaska will be served commercially as adequately as the outlying possession of any nation.

It was the late General Mitchell, outspoken advocate of national air strength, who first pointed to Alaska as a cornerstone of American strategy in the Pacific. America is now applying itself assiduously to the job of creating defenses which will serve later as offensive springboards. And out of all this activity a new Alaska may emerge to become a greater peacetime asset to the nation.

## HEROISM MEDALS FOR SEAMEN

There are already scores, if not hundreds, of good reasons for the Maritime Commission's plan to create a distinguished service medal for merchant seamen. It has asked Paul Manship, the sculptor, to design the decoration.

Not all the deeds of heroism of merchant sailors and officers get into the news. But enough have appeared to give us pride in the American merchant marine—captains who have turned their ships about in efforts to ram attacking submarines; officers and sailors who have risked or given their lives to save others; radio operators who have stuck to their posts, with shells falling perilously near them, to summon help.

Every minute and every mile of a voyage men face great perils with high courage. When danger comes, and they exhibit the highest qualities of bravery, fortitude and personal sacrifice, it is fitting the nation recognize these qualities as it does the distinguished heroism of soldiers, sailors, marines and airmen of the fighting services.

## PLANES WIN BATTLES

As reported in dispatches from the battle front, much of the current British success in holding Rommel in check in Egypt is due to the rapid development of a hard hitting air force in an hour of great need. That is certain to become a familiar story in connection with Allied operations on all fronts.

Rommel was beating the British badly when they made a long retreat to the middle of Egypt seeking supportable ground for a stand while reinforcements came up. Rommel came along fast to challenge this new position—probably too fast if the British were depending upon land borne equipment to bolster them.

But the British marshaled a formidable force of attack planes. Though these are not counted as among the most effective weapons in tank warfare, they seem to have been able to hit the Rommel advance hard enough to stagger it and give land reinforcements time to come up. These are now arriving and the Allies have an excellent chance to smash the Nazi forces.

Hitler has worked the airplane spearhead method with crushing effect. The Japanese employed it victoriously in their campaign to drive the Allies out of the land bordering the South China Sea. Now the Allies are getting their airplane forces diffused sufficiently to be able to concentrate them speedily almost anywhere they are needed.

Allied air progress constitutes a tremendous asset in serving the Allied cause fearlessly in helping to hold the Axis while sufficient expeditionary land forces are on the way.

## ARGENTINA BOWS KNEE TO NAXIS

Unworthy of the proud people of Argentina is the abject position into which they have been forced by President Castillo's acceptance of the German blockade of North America's Atlantic coast.

Argentine ships hereafter will conform to the German regulations by decree of the president. They will avoid our eastern coast. They will stick to the narrow passage allowed them by the Nazis into the Gulf of Mexico.

Argentine shipping, in other words, is to be supervised by the Nazis. If that is not surrendering the right of freedom of the seas, if that is not bending the knee to Hitler's will, then what is it? To such an extremity of national humiliation has President Castillo's policy of neutrality led the republic that has so proudly stood at the head of the Spanish-speaking nations of America.

Two Argentine ships have already been sunk by Axis submarines and a third damaged. Castillo has accepted the German explanations, despite the fact that the Nazis have flatly refused to accompany them with a salute to the Argentine flag.

If the policy of meek acceptance of German orders continues, the Castillo government will not be adhering to its much-boasted neutrality, but will actually be making the country a satellite of the Axis. We hope President Castillo comes to his senses before it is too late.

In Egypt, it's neither the heat nor the humidity, it's the bombs.

## The Parent Problem

By Garry C. Myers, Ph. D.

## IS YOUR SON GETTING MARRIED?

The many young people who are getting married all over the country every day naturally assume that theirs is a unique romance and that their marriage will last forever.

Today I am going to give young bridegrooms the benefit of a few tips a father, who has been happily married for 30 years, told his son just before his wedding. They are helpful hints.

1. Hold yourself in a high plane of self-discipline. Never allow yourself to become the least bit slovenly in speech, dress or person. Let your clothes be suitable for honored guests. Make your bodily cleanliness a constant duty. Shave daily without exception. Unless engaged in white collar work, change before having meals with your wife.

2. Be tidy with your clothes and other things about the house. Be too proud and considerate to leave things for your wife to put away.

3. Always consider your foremost personal obligation to be to your wife—before your parents or anybody else.

4. Learn to like and enjoy your wife's cooking. Never compare it with your mother's or that of other people.

5. Do not find fault with your wife, especially over her housekeeping, about which she will be very sensitive. On the contrary, help her feel proud of all her achievements.

6. Learn to appreciate the dauntless things which mean so much to her. Even a man can acquire taste for the beautiful.

7. Strive always to bring out the best in your wife. Celebrate successes in her. Be liberal with appropriate compliments. Never belittle anything she says or does. When she asks a question or makes a remark which reveals her lack of knowledge about things with which you are very familiar, do nothing, say nothing to cause her to feel ridiculous. Try always to respect her point of view. Put yourself in your imagination in her place. Cultivate consideration for everything near and dear to her. Speak kindly of her family.

8. Constantly discipline yourself in good manners at home and away from home. This will strongly appeal to your wife and make her proud of you.

9. Take your wife into your confidence concerning your income and expenditures. With her help, arrive at a budget plan or allowance for each of you.

10. Share with her your worries and joys at work, but don't burden her with your troubles nor indulge in self-pity.

11. Cultivate broad interests which include your wife. Strive to have good times together at home and away from home.

12. In all your relations to your wife, treat her always as a sacred, feeling personality. Always put her wishes and welfare above your own.

13. If your wife is religious, so to church with her, whether you personally feel like going or not.

14. Don't expect perfection in your wife, nor in yourself. Don't try to make her over. Should you discover some traits in your wife which trouble you don't talk about them to your relatives or friends. Speak of them only to an unbiased person, preferably an expert.

**Solving Parent Problems**  
Q. You have promised your 6-year-old child he may go on a picnic with a neighbor tomorrow afternoon. This afternoon he does something very naughty. Would it be good punishment to forbid his going to the picnic?

A. No. If your word is better than a "scrap of paper." You made no reservations when you gave that promise. Keep the promise, then. Punish the child otherwise as you see fit but don't be such a bully to punish him by forbidding him the picnic.

**NOT FOR REVENGE**  
This thing we do because we must. Revenge is out of thought. Freedom, we hold, a sacred trust. We fight because we ought.

We take no joy from shell and shot  
And women's anguished cries.  
Though fight we must we'd rather not  
Could peace come otherwise.

We do not like to see men die  
Or batter buildings down.  
Nor do we wish standing by  
As helpless sailors drown.

Though hard must be the fight we make  
Till peace shall come at last.  
We shall not strike for vengeance sake  
Nor fire one needless blast.

but have you not all that you need?  
Godliness with contentment is great gain.—I Timothy 6:6.

## Hints On Etiquette

Don't use deeply colored stationery. It is not considered in very good taste and it is much less legible than white, cream or faintly colored paper.

Whatever the truth may be, we've got to make the German people believe that only Nazis will be hanged when it's over.

## SENATOR GLEAN TELL US:

To win this war, we must replace the old depression-minded, social-reformer, bureaucratic office holders in Washington with the brightest and most able minds in America regardless of former political affiliations—men to whom patriotism and loyalty to their country mean more than personal considerations.

We must have a leadership willing to shelve politics for the duration—a leadership that does not permit vanity, showmanship, self-aggrandizement and personal bias to dwarf its perspective—a leadership that is fair and impartial and that ceases to regard the citizenship as so many voters to be corralled in the next general election—a leadership that does not brand any and everyone of the opposition there were 22 million in the last November election as a rat, a traitor, a Benedict Arnold, in the pay of our enemies—a leadership in whom the public unitedly accord a full measure of confidence and respect.

Herbert Hoover, Al Landon, Wendell Willkie and Al Smith—each have proven their executive and administrative ability—each has millions of personal followers who want to see them given responsibilities in our war effort. We will never have complete unity in this country behind the present administration until these men have taken an active part in our national program.

One would think if all the old rubber shoes worn and lying around loose would supply the rubber shortage.

## What's What At A Glance

Rationing Brings Some Funny Quirks  
Only Slight Inconvenience Is Caused  
No Real Hardships Have Been Felt Yet

## By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, July 11—If wartime rationing and scrap collecting are a bit overdone at present it probably is nothing worse than an inconvenience to Yankee civilians. They are doubtless downright hardships to folk in other countries, where the pinch is more acute, but, with our larger resources we don't actually suffer here. Maybe we will later. Certain lines of business will, anyway, as they begin turning shy on merchandise to keep 'em open. They'll face bankruptcy, in fact. That's why Price Fixer Leon Henderson wants em subsidized by the government—to prevent an economic crisis as they begin to pop. That time hasn't come yet, though—not here in the United States.

Nevertheless, the situation is rather funny already. Illustrative: Several months ago it was proclaimed that, in the name of patriotism, all good Americans ought to save waste paper, which federal agents would come around periodically and collect, as an accumulation with which to fight the foe.

**That Paper Drive**  
Well, in my occupation I get a lot of newspapers and my wife and I saved the back numbers faithfully. For quite a while a federal representative called regularly and scooped 'em in, complimenting us for having such wads of 'em. Then he began visiting us less frequently and now he's stopped doing so. It all, I've got a call of the sheets, threatening to set my house on fire. My wife tries to get in touch with the proper functionary's headquarters by phone. The answer is, "Oh, gee!" We've got nine times as much newspaper as we need, and more, too.

That was one kind of scrap collection. A still better advertised kind of rubber scrap collecting, accompanied by rationing to the point of near-starvation.

It was widely broadcast a few days ago that the Secretary of the Harold L. Ickes, leaving the White House after a call on President Roosevelt, glimpsed a rubber mat on the floor, and yanking it up confiscated it for wartime utility.

Upon analysis it develops that such mats consist of so small a proportion of the total rubber supply that they aren't worth reclaiming.

Nevertheless Harold's stunt made a stir. Some weeks back I had occasion to quote Elliot E. Simpson, New York rubber dealer, to the effect that in reality, we're not rubber shortage except as it's being engineered by four or five big companies.

## The World and the Mud Puddles

## WHY WORRY ABOUT IT

Probably the sense of futility is all this talk and literature that is being spilled concerning what we are going to do after the war is over. The writers and speakers are taking a great deal for granted. The business before this nation just now is to win this war and they do not seem to do much about it except spend a lot of money and plant a lot of munitions which are not being used. We are supposed to be making a great many formidable airplanes. We are supposed to be training a great many pilots and fighting men to operate these engines of war, and yet the German submarines are sinking ship after ship in the Atlantic and the Jap is doing about as much as he pleased in the Pacific with two exceptions—the affair in the Coral Sea and the repulse at Midway. The Jap, however, is already right up the Aleutian chain of Islands to Alaska. That is as far as we know at the present time.

As far as what is going to happen after the war—providing the Allies win the war—of the people of this country are left to their own initiative, they will probably find a way to make money and pay eventually, the enormous debt which we are incurring. The New Dealers' however, with their rolling eyes and radiant expressions refer to the pursuit of an Utopian order and insist that "social gains" must not be lost.

## HAPPYGRAMS

By ERICH BRANDEIS

Secretary Morgenthau blames the drop in War Bond sales for June on "over-optimistic statements about the war."

The Secretary stated that the sales of bonds go up whenever the news is bad. "When the news is good, people just can't get mad enough to buy bonds," he said. "That has been true in England, too. Whenever a town is bombed, sales go up."

What is the matter with human beings, anyway? Do we have to be insulted every day to stay mad?

If a fellow slaps you in the face, if he hits you with a stick, if he sets your house on fire—are you mad at him for a day and kiss him on the cheek the next?

What about Pearl Harbor? Forgotten already? What about the treacherous violation of the treaty with Russia? What about the impudent landing of spies on our coast? The murder of thousands of innocent women and children? The concentration camps? The tortures?

What about the violation of everything that is sacred to American decency, American freedom? Hitler has stepped on us. He has spit in our faces. He has hurled insult upon insult.

Hirohito and his buck-toothed liars and cheats have stabbed us in the back, have ridiculed and humiliated us.

Both of these creatures of hell have publicly proclaimed that they are going to ruin and run America.

What more do we need to stay mad?

We should be ashamed of ourselves every single month the War Bond quota is not exceeded by a large amount.

They ask you to lend them ten percent of your income. Would you rather give a hundred percent of your freedom to Hitler?

# Special Service Is Arranged For Sunday Evening

## Plan Four Family Meetings Sunday

Mass Meetings To Be Held In Afternoon; Union Meeting Sunday Evening

### PARK SERVICE FOR SUNDAY CANCELED

Four family evangelistic meetings are planned for Sunday, July 12, in the James A. Stewart evangelistic campaign which has been under way in this city for the past four weeks.

Mr. Stewart, a native of Glasgow, Scotland, came to this city under the auspices of the Union Young People's Prayer Band and has continued services in the united churches campaign.

A women's mass meeting is planned for Sunday afternoon at 3 o'clock in the First Methodist church with Mrs. Stewart as the speaker. All war mothers and wives are especially invited to attend this service. The festival choir will provide the music.

At the same hour, a men's mass meeting is to be held in the First Christian church with Mr. Stewart speaking. There will be special music by a male quartet.

All of the Young People's Societies of Lawrence county will unite at 6:30 o'clock for a service in the First Methodist church when Miss Elizabeth Lewis, a close friend of the Stewart family, will speak. Miss Lewis, conference evangelist for the Primitive Methodist church, studied for some time in Wales.

A city-wide union rally, taking the place of the Cascade Park service originally scheduled for this Sunday, will be held in the First Methodist church in the evening. From 7:30 to 7:45 o'clock, there will be an organ recital by Edwin Lewis, the church organist.

Mr. Stewart, the speaker for Sunday evening, has chosen as his subject, "The Question That Every Man in New Castle Must Answer." A choir of over 100 mixed voices will present several selections.

## Farewell Service For Missionaries

A farewell service will be held during the Young People's hour at 6:30 p. m. Sunday in the Gospel Tabernacle, 210 Pearson street, for Rev. and Mrs. Thomas Constance who are leaving soon for the state of Utah where they will conduct pioneer missionary work.

Mr. and Mrs. Constance have been spending the last six months in New Castle at the home of Mrs. Constance's mother, Mrs. Myrtle Adams, Court street. The couple recently completed successful missionary work in the Oasis district of California.

At the service tomorrow evening both Mr. and Mrs. Constance will bring messages. An offering will be taken during the service to defray the expense of the couple to their destination. Both will work under the auspices of the Christian and Missionary Alliance.

## North Side Church Prophetic Rally

A special prophetic rally will be held Sunday evening at 8 o'clock in the North Side Community church, Wilmington road at Euclid avenue, featuring sound motion pictures of General Douglas MacArthur, the war in the Philippines and Australia, climaxed by a film portraying the "Star Spangled Banner," with musical accompaniment.

The message, "What the Bible Teaches About the Future of China and Japan," will be delivered by Dr. W. D. Herrstrom of Minneapolis, Minn. Dr. Herrstrom visited both China and Japan in 1939.

## To Hear College President Sunday

Dr. Stephen W. Paine, president of Houghton College, Houghton, N. Y., who is one of the youngest college presidents in the United States, will speak at the Wesleyan Methodist church, Lyndal street, South Side, Sunday morning at 11 o'clock. ## The World and the Mud Puddles

(Continued From Page Four)

President at the head of a special Board, called the "War Economy Board" with orders to put on their thinking caps and work out some plan of operation after the war. This board of heavy ponderers has been stripping the cosmos for a bright idea for a year or two but so far nothing much has been hatched.

The Vice President, however, appeared in public a few weeks ago with a speech in which he revealed that his board was working on a plan for a free and friendly world in which all would be assured of their share in the good things of the earth.

This historic address was followed a short time later by a similar line of philosophy given out by no less a distinguished member of the New Deal circle than the Honorable Sumner Welles.

Now, when Mr. Welles speaks, the sun and moon of international diplomacy stand still. Without a question, Mr. Welles is America's top flight diplomat. He is Under Secretary of the State, second in rank only to Secretary Hull in all except name. Welles is President Roosevelt's super smoothie—the man he sends abroad to deal in all fine points with the crack ambassadors of the world, so when Mr. Welles opens his mouth, it is conceded that he is speaking with the voice of authority.

It is interesting, therefore, to learn just what Mr. Welles had in mind. Like his fellow humanitarians, he dwelt at great length upon the opportunity of the United States of America for setting up a happy, prosperous and contented united nations of the world, each man with a chicken in his pot or a full dinner pail.

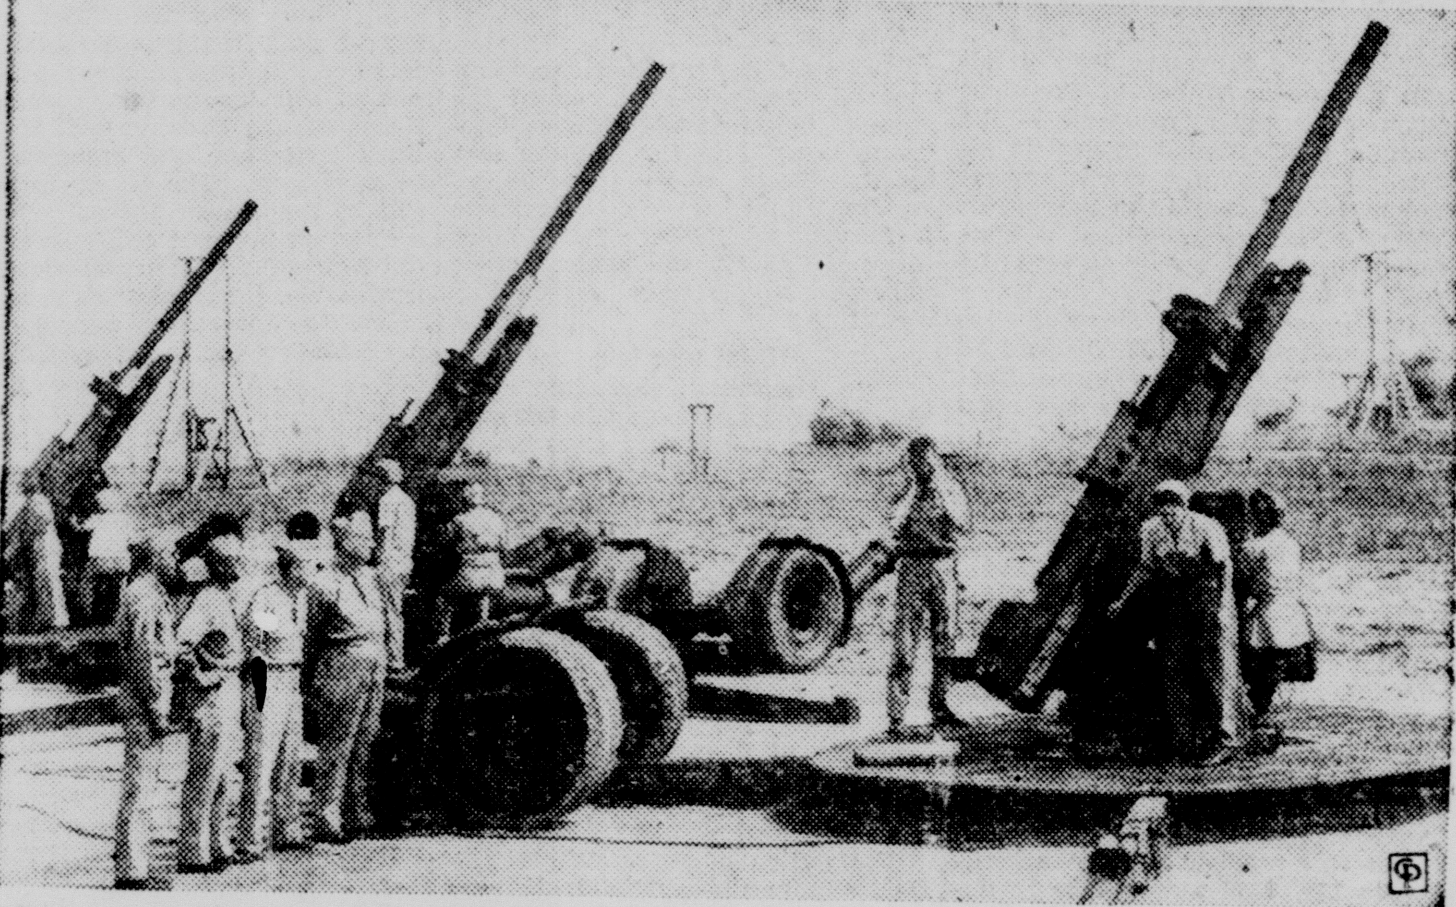

Of course, it all involved a huge military machine to be used in punishing anyone who refused to sit down quietly and eat his chicken. They must also be free to do as they please; in fact, they would be compelled to do as they pleased as long as the refrained from disturbing the peace.

The only problem to solve, according to Mr. Welles, would be to devise some way to increase the purchasing power of the masses so as to assure a more equal distribution of the products of labor

## Amphibian Force Need Volunteers

War Department Appeals To Local Recruiting Sergeant For More Men

While local men have responded well to the call for Engineer Amphibian Command recruiting for the Army, Sergeant John T. Bilpuch today received an urgent telegram from the War Department requesting that as many more men as possible be enlisted because the need was vital.

The Engineer Amphibian Command is a new Army unit modeled after the Navy's "Seabee" group to fight and work overseas. They are to be trained at Camp Edwards, Mass.

Sergeant Bilpuch emphasized that the command is new, and while he can give no definite promise on ratings, there will be many opportunities for advancement and men with ability will win rapid promotion.

The list of specialists wanted includes diesel and auto mechanics, blacksmiths, construction supervisors, cooks, deckhands, fishermen, draftsmen, electricians, lithographers, first mates, painters and plumbers.

Radio repairmen and operators, riggers, sheet metal workers, welders, motorboat operators, tractor mechanics, master mechanics and signalmen.

Any men who qualify for any of these trades and wish to serve their country to its best advantage are urged to see Sergeant Bilpuch in his office in the Post Office as soon as possible.

## Brunton, Bowen Explode Bombs

Two Bomb Experts Also Show How To Extinguish Them

Hundreds of persons last night at Marshall field witnessed Marie Brunton and City Fireman William Bowen extinguish incendiary bombs, similar to those now being dropped by the Axis in different sections of the world. Had rain not interfered, a crowd considerably larger would have been present, no doubt. Many air raid wardens, fire-watchers, auxiliary firemen and auxiliary police attended the demonstration.

## Universal Employees Earn Minute Man Flag

Judge W. W. Braham Speaks At Raising Ceremonies; Over 90% Buy Bonds

On Friday at 3:30 p. m. employees of the Universal Sanitary Manufacturing Co. gathered in the slow drizzle to raise a Minute Man Flag. The weather could not dampen the men's enthusiasm for this tangible evidence that they were going all-out to "lick the Axis."

Ceremonies were begun by President Keith McAfee, who introduced Judge W. Walter Braham. The judge congratulated the workers, and urged them to continue their war bonds subscriptions as much as they were financially able, for bonds mean rifles to win the war.

The flag was presented to Mr. McAfee by Lee Spear and was raised by Mrs. McAfee, representing the Red Cross. Finally the entire assembly sang "The Star-Spangled Banner."

The right to raise a Minute Man Flag is given to every concern 90 per cent of whose employees buy War Bonds each pay day. The Universal employees have also formed a "Bond a Period" club with 25 members enlisted.

## SEVENTH WARD NEWS

### Organization Of Observation Post Completed Friday

Seventh Ward Residents Functioning Smoothly In New Defense Task

At a meeting held in St. Margaret's Lyceum Friday evening, the work of organizing the personnel to man the Air Craft Warning post, under the direction of the Perry S. Gaston Post, American Legion, was completed, and Chairman Al Stritzinger, who presided at the meeting, reported that the observers are functioning smoothly.

County Chief of the Aircraft Warning Service Fred M. Alexander, and Deputy Chief Charles E. Allen, along with Chief Observer Lee R. Hanna were present and outlined the procedure to those who are new in the service.

Over 100 residents of the ward have signed up to take part in this important Civilian Defense service, most of whom were present at last night's meeting, assuring that the Seventh Ward post will be one of the best in this section of the country.

The new observation post, situated on a hill commanding the entire district, is being rapidly completed, and is expected to be ready for occupancy early next week. It has been made possible through the generous cooperation of E. F. Scanlon, who has not only donated the building materials, but is also furnishing the necessary construction work.

WASHINGTON, July 11.—Melvyn Douglas, the screen star, may be working diligently today without salary for the Office of Civilian Defense but veteran Sen. McKellar (D-Tennessee, doesn't think his work is worth a "tinker's burrah."

The committee was told by O.C.D. Director James M. Landis that Douglas heads a small unit that works with writers to get them to give their writing talent to the government. The office force costs \$22,920 annually.

"I understand," he mocked, "that a condemned prisoner is granted a last request."

"Well, I'll ask for a gas mask." After he had expressed an interest in gas masks, one was brought to Rogers. He found difficulty donning it.

"I'm afraid it wouldn't do me any good," he quipped grimly. "The gas would get me before I got it on."

New York Sinks Brownies, Red Sox Mow Down Tigers; Cardinals Win, 3-2

### CINCY'S WALTERS DEFEAT DODGERS

(International News Service) NEW YORK, July 11.—St. Louis had pulled to within seven and a half games of Brooklyn today in the race for the National League pennant. The Cardinals whipped New York, 3 to 2, yesterday while the Dodgers were being taken over by Cincinnati, 2 to 1. Both contests went ten innings.

The Cardinals lost on an error and the Dodgers lost by a miscue. With the Giants leading 2 to 0, with two away at home on in the ninth, the Cards started an uprising that tied the score.

Terry Moore and Enos Slaughter singled in the tenth and then Billy Werber failed to cover third as Stan Musial bunted. Relief Pitcher Ace Adams fielded the ball, and fired it at the empty bag. Moore racing across home plate with the winning run.

**Error Spills Bums**—Hugh Casey was on the mound as relief pitcher as the Dodgers got the works. Pitcher Bucky Walters had opened the tenth with a single and Kirby Higbe left the game and Fireman Casey took over. After Eddie Joost fanned, Lonnie Frey hit a made-to-order double play bouncer back to the box.

Casey flipped the ball to Pee Wee Reese at second but the Dodger shortstop dropped it. Frank McCormick singled home the winning run. Claude Passeau won his 13th victory to give the Chicago Cubs a 3 to 2 win over the Boston Braves as three Boston errors figured in the outcome, one of which was committed by Eddie Miller. Brave shortstop. It was his first misplay in 41 games.

The scheduled night game between Pittsburgh and Philadelphia was postponed.

In the American league, Boston whipped Detroit, 6 to 1, to keep pace with the league leading New York Yankees who beat St. Louis 5 to 2.

**Hughson Stars**—Tex Hughson, rookie pitcher, made sure that the Red Sox remained firmly ensconced in second place. He not only hurled seven hit balls for his ninth victory of the season; Tex drove in three runs with a rousing double and a single.

Atley Donald scattered nine hits to give the Yankees their win. The champs collected all their runs in the first inning off Johnny Niggelma. It was just as well that they did, too, for a left-handed rookie named Stan Ferens took over in the second frame and turned the McCartyman every way but loose.

Stan pitched for Columbus, Ga., last year, and yesterday he allowed the Yankees two hits and permitted only one man to reach second base in seven and 2-3 innings.

Mel Harder gave only four hits to win his seventh victory as the Cleveland Indians stopped the Philadelphia Athletics, 4 to 2.

Chicago and Washington were scheduled to play under the arcs but their contest was postponed because of weather. The game reached the three and one half inning mark.

## HERE AND THERE IN SPORTS LAND

Jimmy Dunn, formerly of here and Cleveland, now of California, and Joe Tuma, of Cleveland, last night visited New Castle, and in conversation with the writer Dunn promised to be here the night of July 21 and aid the boxing short for the benefit of emergency fire-fighting equipment. "You know I am interested as much today in New Castle as when I resided here. My son, Jimmy, is in service at Hamilton field, Calif., and I want to do my bit wherever I can," said Dunn. His ace fighter, Jackie Wilson, colored welterweight championship contender, is in armed service. Dunn hoped to gain the sanction of the state athletic commission to permit some "big names" to act as referees. Telegrams have been sent to former Welterweight Champion Fritz Zivic, former Middleweight Champion Teddy Yarosz, and of course our own former middleweight champion, George Chip, is here.

**Fritz Zivic and Norman Rubio** will bolster the Mose Brown vs. Antonio Christoforidis, Joe Maxim vs. Curtis Sheppard fights for the Dapper Days at Pittsburgh July 27. Arne Anderson equaled Gunner Haeger's eight-day-old unofficial mark for the mile with a clocking of 4:06.2 at Stockholm yesterday. Obash won the Amalfi purse at the Empire track Friday. Bill Welsh, Houston, knocked out defending titlist Corporal Marvin Ward out of competition, 2 up, in the western association championship play at Spokane yesterday.

## Moose To Battle Meadville Sunday

Attraction Booked For Marshall Field; Keystone Team Is Top Ranking Nine

One of the strongest teams in the district—Meadville's Keystone Ordnance baseball aggregation—invades New Castle Sunday afternoon at 3 o'clock to battle the Moose club on Marshall field, Scott field.

Hughy Tate, who cavorted around local diamonds for many years and who has a number of friends here, manages the Keys. The roster includes an array of crack semi-pro stars. Thus far, the Meadville have kayoed some of the smoothest clubs in the section.

"Fiz" Rodenbaugh of the Moose will present his strongest combination in hopes of recording a triumph which would boost the prestige of the local sandlotters.

"Bill" Daddio, Pitt university's All-American griddler a couple of seasons back and who serves as physical director in the plant, will be here.

A large gallery is expected to witness New Castle's first attraction featuring strong out-of-the-city competition.

## Christo-Brown To Fight July 27

(International News Service) PITTSBURGH, July 11.—Anton Christoforidis, former holder of the N.B.A. light heavyweight crown, today was matched by the Rooney-McGinley club with Mose Brown, McKeesport Negro, over the 10-round route at Forbes field, July 27.

Anton defeated Melio Bettina for the N.B.A. title in a 13-rounder at Cleveland on January 14, 1941, but lost it to Gus Lesnevich four months later. In recent bouts, he has defeated Cefernio Garcia, George Burnette, Jimmy Reeves, Johnny Colan and Paulie Mahoney.

Brown, in his most recent start, scored a technical knockout over Frank Zamaris of Detroit in seven rounds.

Eddie Dicks, who works in the St. John's faculty dining room, hasn't missed basketball practice for 27 years.

Tonight at The Arena 8 to 11:30 P. M.

## Speaker Is Still 'On Danger List'

Baseball's Gray Eagle, 54, Undergoes Operation For Intestinal Disorder

(International News Service) CLEVELAND, July 11.—Tris Speaker, the Gray Eagle who led the Cleveland Indians to their lone American league pennant in 1920, is still on the danger list at Lake-side hospital, attendants reported today, although he spent a "fairly comfortable night."

Speaker, 54, was taken to the hospital Sunday night suffering from a cold, believed to be on the verge of pneumonia. His physician, Dr. Edward Castle, operated on him Wednesday night for an intestinal disorder.

"The next two days will tell the tale," Dr. Castle said. Five years ago Speaker won a bout with death when he fell through a rotted railing on the second floor of his home. He suffered a fractured skull, a fractured arm and cuts in his face that required 100 stitches to close.

He is a steel executive and chairman of the Cleveland boxing commission.

## Saratoga Spa Set For Meet

Value Feature Races \$202,500; All Big Named Horses Will Show Hoofs

(International News Service) NEW YORK, July 11.—Up in the peaceful hills of New York, far from the hustle and bustle of Twentieth century speed and strife, a little country town is stretching its arms today, yawning a bit and waking from a long winter's rest to prepare for a wild month of sporting life in which it indulges just once each year.

There has been much talk recently, that the bombs and the bullets of the dictators and the laws of our own land, which have rationed gas and other important commodities, would force the little old town to sleep on for the duration of World War II.

Born in it, Saratoga Springs, for in the years of another war—said a Lewis Conn, executive vice chairman. "This equipment will be able to put some kind of equipment to fight possible Axis bombs in every ward in the city" was the declaration of W. J. Connery, general chairman.

"I think the coming benefit ought to bring out every man, woman and young man and his girl in the city," said a Lewis Conn, executive vice chairman. "This equipment will be able to put some kind of equipment to fight possible Axis bombs in every ward in the city" was the declaration of W. J. Connery, general chairman.

"We believe we will have a very successful season, notwithstanding the war situation," said President George H. Bull today as he pointed out that 27 historic features, including 23 flat stakes and 4 steeplechase features had drawn a total of 2,850 nominations—a new Saratoga record. The value of these features reaches exactly \$202,500.

**Top Horses Named**—Practically every big name horse in training has been named for one of its stakes, continued Mr. Bull with the best two-year-olds in the nation, including Hyperion, Jack S. L., Breeding Home, Supermont, Sunup, Count Fleet, Red Sonnet and many others expected to take part in the hopeful stakes, which will carry \$40,000 in added money, and be one of the many features of the closing day, August 29.

Whirlaway, Market Wise, Attention, Tola Rose and many others of the older horses, and Vagrancy, the East's champion filly, are just a handful of the other big named racers who will carry their speed and stamina over the historic course.

In addition to the regular program of colorful stakes, an steeplechase the Spa will inaugurate hurdle racing for the first time this season. They hope to put on three steeplechases and three hurdle events weekly.

Some of the other famous stakes to be contested, and their values, include the \$24,000 Travers, which will have its 73rd running, August 15; the \$10,000 Spinaway which will run the same day; the \$6,000 Flash stakes; the \$12,000 United States Flash stakes; the winner-take-all Saratoga Sales stakes; the \$6,000 Sanford stakes and Albany stakes, and the \$12,000 Grand Union hotel stakes.

**Top Swatsmiths**—(International News Service) Leading Hitters American: Williams, Red Sox, 344; Gordon, Yankees, 343; Doerr, Red Sox, 343. National: Reiser, Dodgers, 357; Medwick, Dodgers, 336; Lombardi, Braves, 328.

**Home Run Leaders** American: Williams, Red Sox, 18; York, Tigers, 14; DiMaggio, Yankees, 12. National: Mize, Giants, 13; Ott, Ciants, 12; Camilli, Dodgers, 12.

**Runs Batted In** American: Williams, Red Sox, 80; Doerr, Red Sox, 59; DiMaggio, Yankees, 57. National: Mize, Giants, 63; Medwick, Dodgers, 55; Elliott, Pirates, 55.

## SPORTS WORLD RAMBLINGS

Week's wash:

While he did not see action, Fred Shaffer, New Castle's star pitcher, was a member of the Navy squad defeated by the American league bombers in Cleveland. The blond twirler was picked by Lieut. Commander Mickey Cochran during one of those last minute changes.

**Mr. and Mrs. Paul Cuba** of 327 North Shengango street, he's an assistant coach at New Castle High, have been visited by the stork again. The Cubas now have a girl playmate for their boy.

**Private Bill "Slug" Smith** writes from Parris Island, S. C. He states that "Bugs" Flinnor, ex-Red Sox player here, Pete Carey, the promising amateur boxer, Willie Farrell, the cager, and D. A. Jackson, a baseballer, are getting along well. A dozen New Castleites are stationed in Platoon 438, Smithy reports.

The same fans who cheered him during his 56-game hitting streak are now giving Joe DiMaggio the Bronx cheer. The Yankee clipper remains unperturbed despite the fact that he knows he's having his most dismal season since graduating to the majors. His batting mark has soared to .271.

That Lon Warneke to Cub deal is as funny as most of Bob Hope's jokes. By now, every reader of the sports pages knows that the tobacco chewing right-hander had been claimed for the \$7,500 waiver price. Last year, Warneke won 17 and lost nine, including a no-hitter against Cincy. Not bad, eh? This season, Lon owns a half dozen triumphs and only three defeats. Not bad again, eh?

**Pittsburgh, the Phillies and the Braves** are sorely in need of pitchers, fellows like Warneke. But still, these teams were generous enough to let the Cub grab Lon, mind you, for a paltry \$7,500. That's supposed to be the story. Gentlemen, please.

**Warneke, by the way, has won 183 victories** compared to 108 setbacks in a dozen years spent across knolls of the major leagues. Johnny Cooney, the Braves' veteran but still classy outfielder, has averaged only two errors a year in 17 semesters.

Since early spring, a thousand high school and collegiate coaches have joined the ranks of the Navy. Rumors that the Mid-Atlantic may not finish the season still persist around baseball marts. The Pirates rate a round of applause for the fine show which fattened the service funds. With the Phillies as the attraction, the Bucs raised over \$35,000.

## Ward Is Defeated In Amateur Tourney

Houston, Texas, Stylist Upsets Champ As Western Golf Event Nears Close

(International News Service) SPOKANE, Wash., July 11.—Bill Leitch, Houston, Tex., stylist, was favored today to add the western amateur golf crown to his national public title after defeating Corporal Marvin "Bud" Ward, 2 up, in the tourney's fourth round.

In today's semi-final match, Welch faces Brace McCormick of Los Angeles, who won a 3 and 2 fourth-round victory over Skeel Riegel of Glendale, Cal.

The other semi-final match pairs Corporal Pat Abbott, formerly of Los Angeles and now of Lowry Field, Denver, and Harry Givan of Seattle, a member of the Walker Cup team in 1937.

Abbott survived his fourth round test by defeating Marsh Hammond, Spokane, 4 and 3, while Givan won his way into the semi-finals with an easy 5 and 4 victory over Wilford Wehrle of Racine, Wis.

Winners of today's 36-hole matches will meet tomorrow in the tourney finals.

## Shut Out Hauls Big Load Today In Rich Classic

Three-Year Old Champ Will Carry 129-Pounds In \$25,000 Empire City Handicap

(International News Service) NEW YORK, July 11.—Shut Out, the three year old champion—at least at this stage of another baffling racing year—gets the \$64 dollar question upset Empire City today.

Loaded with 129 pounds, three more than he has ever been asked to carry before, the son of the chocolate soldier, Equinox, will face probably eight other starters in the \$25,000 added mile and three sixteenths Empire City Handicap and he'll have to be a good horse to win it.

Among those named to try and upset the Greenreent stable's latest pride and joy are the Wheatley stable's entry of Vagrancy and Apache; Eternal, Lochivar and Ahamo, Ramillies, Lochivar and Col. Teddy. Shut Out gives them all chunky concessions of weight down to 105 pounds, the feather impost in the affair which Eternal Peace will carry, if he decides to go post-ward.

While Shut Out undoubtedly will go the shot a heavy favorite, he won't have any cinch with the Wheatley entry or a couple of things named Ramillies, Lochivar and Col. Teddy.

Personally we think the Wheatley entry will prove the pair to beat. Vagrancy, the classiest filly of the year, is in this thing with only 114 pounds and ran a swell race to finish about four back of Whirlaway and Tola Rose in track record time for a mile and one quarter last Saturday. The fact that she will have Apache running with her is not to be sneezed at.

**'Glad To Be Back,' Lon Warneke Says**

"Yep, I'm glad to get an early turn," said Lon, "pitchin'—that's what I hired out to do.

"I don't figure to fall below 90 or anywhere near it. I reckon 18 and 13 was the closest I ever come to bein' a 500 pitcher and I'm not fizin' to lose more than I win now."

## FAIR OR FOUL

### By LAWTON CARVER

(International News Service) NEW YORK, July 11.—The baseball officials should step forward sooner or later and explain what the annual all-star major league baseball game is supposed to be, whether it is supposed to be a contest in which both sides are trying equally hard to win or whether it is regarded by them as a game in which all the stars selected to play in the game are to be given a chance to show their stuff before the assembled fans.

Ever since last Monday night's 10th annual tussle between the American and the National Leagues there has been considerable discussion among duly qualified observers and an equal amount of beefing among the citizens over the obvious difference in the viewpoints of the two circuits.

**Play To Win**  
The American League play to win, just as though the world championship were riding on the outcome. The National League plays to show off its stars. National Leaguers are a little irate over the fact that the latter procedure has helped to give the American Leaguers seven wins in the 10 games.

The whole question involved is whether a club should get out there and tussle all the way strictly for a win, or enter the game with the idea of showing off as many stars as possible to satisfy those who came to see certain individuals perform.

On the results, the American League has the right idea, if victory is important. Those gents from over in the tough slugging circuit go out there to take that game and they generally do as the records prove. They are not interested in the fact that some fans may be out there strictly to see some favorite.

You see, baseball fans up in this part of the country can get downright het up over things like that. They will holler their heads off to prove that the league they favor is superior to the other league, then again, of course, they probably will holler just as loud if they go out to see some certain star player and find that he doesn't get into the lineup all night long.

## Rhododendrons In Their Full Glory

Wild "Rose Trees" Found In Mountainous Districts And Near Swamps

(Special To The News) HARRISBURG, July 11.—Rhododendron, Pennsylvania's most ornamental evergreen shrub, is now in its full glory, according to Milford Bratton, director of parks, Department of Forests and Waters. Unlike the common mountain laurel which grows naturally in its profusion along highways, the rhododendron is a shrub of the wild woods. The place to find it in its greatest beauty is in the mountainous sections of the state and along the borders of swamps and near streams where it often spreads over extensive areas forming impenetrable jungles. The DeWitt Run state forest monument, located in the Loran forest district in Huntingdon county, has some of the largest and most picturesque growth of rhododendron in the state. Although the mountain laurel and rhododendron belong to the same botanical family, it is simple to distinguish one from the other. The leaves of the rhododendron are usually twice as long as those of the laurel and its flowers are of a deep pink or white. Its name is derived from a Greek word which means "rose tree".

Sixteen species of rhododendron occur in North America and at least five species have been found growing naturally in Pennsylvania. It is most abundant in the central and northern counties. The extensive rhododendron thickets within the state forests are often the home of many wild animals, particularly deer.

Prices Are Mixed From Start In Trading In New York Market

Plans Progress  
For Huge Parade

Procession To Take Place  
On August 1 As Climax  
To Celebration

FOURTEEN BANDS  
TO SHARE EVENT

ELLWOOD CITY, July 11.—Plans are progressing rapidly for the huge parade to be held here on Saturday afternoon, August 1, as the climax to the Golden Jubilee festivities. The parade committee revealed at their meeting last night that some 14 bands and drum corps have already consented to be on hand and with a possibility of eight or ten more participating, the parade will not be lacking the necessary patriotic music to keep everyone in step. G. W. Hunt of the international parade experts and the first professional float builder to ever come into Ellwood City to handle the floats for a parade stated that he expects 16 to 18 floats all beautifully decorated in the parade. Some 70 to 80 horses will be in the line of march along with oxen carts and covered wagons. The B. & O. Railroad is sending their diesel electric locomotive which has been changed in color from its original blue and gray with lettering and striping in gold to red, white and blue.

Every club, lodge, patriotic organizations and nationality groups has signified intentions of entering the parade with either a float, band, drill team or marching unit. Some of the local organizations are going to a great deal of expense to have their organization appear in a colorful manner in the parade.

The line of march for the parade is forming at Pittsburgh Circle and will proceed south on Second street to Crescent avenue, west on Crescent to Fourth street, north on Fourth street to Lawrence avenue, west on Lawrence avenue to Fifth street to Crescent avenue, west on Crescent to Sixth street, south on Sixth street to Park avenue, west on Park avenue to Ninth street, north on Ninth to Lawrence avenue, east on Lawrence avenue to Fifth street, north on Fifth street to Spring avenue to the Pittsburgh Circle.

Another meeting of the parade committee will be held on next Friday evening at the jubilee headquarters.

Pleasant Hill Grange  
To Present Pageant Scene

"America on Parade" is truly the "wonder story" of American development from earliest times to the present. The high spots in the pageant are chosen from the type of events led to the founding and development of Ellwood City itself. One such incident was the expansion of our country westward. Soon after the American Revolution families began to push across the Allegheny mountains to settle in regions like ours.

Pleasant Hill Grange has accepted the production of this scene called the "Early Settler." It will be marked by color and action. Oxen, horses, carts, wagons, clothes of the period, amusing things that happened in those days, and many other incidents make this scene a lot of fun to produce and to watch.

Forty-four members of Pleasant Hill Grange are now working on this scene getting it ready for your enjoyment. The cast is: Joe Walton, Carl Walton, Clair Friday, Earl Friday, Mrs. Barnett, Lillian Jones, Acie Wagner, Don Powell, Bob Duncan, Helen Workley, Doris Jean Workley, William Boyd, Nina Boyd, Austin Beighley, Dorothy Robinson, Wilbur Robinson, Ida Hazen, Lulu Hazen, Joan Hazen, Dale Hazen, Patsy Aiken, Willard Deemer, Blanche Workley, W. ELLWOOD CITY, July 11.—An election of officers for the ensuing year highlighted the July meeting of the Ellwood W. C. T. U. held Friday in the form of a breakfast at Ewing Park grove and resulted.

President, Mrs. Russell Anderson; vice president, Mrs. George Burrows; secretary, Mrs. Margaret Kennedy; and treasurer, Mrs. Thomas H. Patterson. Mrs. A. H. Gardner conducted the meeting during which plans were made to join the other unions of the district in sponsoring a float for the jubilee parade. Letters concerning a recent petition launched by the Union were read from Congressman Lewis Graham.

The last breakfast was served by a committee. Mrs. Anna McKinley, Mrs. Rupp and Mrs. Burrows. Members were invited to meet again on Friday, August 14, at the home of Mrs. Robert Snedden, Wayne avenue.

Newspapermen  
Are Given View  
Of Nazi Spies

By JACK VINCENT  
(U. S. Staff Correspondent)

WASHINGTON, July 11.—The eight Nazi saboteurs now on trial before a military commission, today were viewed by newspapermen for the first time since they were trapped, to reveal that they are a sullen group of men, apparently realizing that they were doomed.

For the first time in the four days of the trial, the bars of secrecy were let down by military authorities low enough to permit a party of newspapermen view the courtroom and the prisoners.

I was among the group that saw the spies.

## Rain Fails To Halt Campers At Rentz

Yesterday's rain failed to halt the activity at Camp Fred L. Rentz. Moving pictures, boat races, mushball and volleyball games featured the morning. Karl Thayer of the Gonick Cabin came through with a victory in the boat racing.

An indoor track meet kept the boys busy in the afternoon. Before the rains, the "ole swimmin' hole" had been very popular. The boys could hardly wait for the call and "last one in's a sissy" sounds all over camp at swimmingtime.

Rev. John Earl Myers, Jr., will conduct the Sunday vesper service at 3:00 p. m. to which all parents are invited.

## Parent Slayer, 24, Sentenced To Die

Jury Judges Youth Sane; Had Burned Father To Death And Chloroformed Mother

(International News Service) LOS ANGELES, July 11.—Slim, aesthetic Courtney Fred Rogers, a church organist, Friday was under sentence to die for slaying his mother and father.

Sentence was passed after a jury of 10 women and two men adjudged him sane. The same jury had found him guilty earlier on both murder counts.

The 24-year-old Rogers was found guilty of administering a fatal dose of chloroform to his mother February 10, 1941, and of causing the death of his father last October 25 by leaving his unconscious in the home to which he set fire. The state charged he killed his mother to gain title to the Rogers home, and burned his father to death to collect insurance.

## Army Man Drowns; Death Is Suicide

(International News Service) HARRISBURG, July 11.—Missing nearly 48 hours, Capt. Evan A. Woodward, 47, of Hanover, N. H., was found drowned Friday in the Susquehanna river in what army authorities termed as a suicide.

The body of Captain Woodward, formerly a member of the faculty of Dartmouth College, was sighted by an army plane while floating face down in the stream, not far from the Army Air Corps Intelligence school where he was a student.

Captain Woodward, married and father of three children, had been missing since noon Wednesday. According to a statement issued by Col. E. F. Koenig, school commandant, "Evidence clearly indicates suicide."

## Republicans Confer On Congress Recess

(International News Service) WASHINGTON, July 11.—Senator Minority Leader McNary Friday issued a call for a party conference on next Tuesday to decide whether state Republicans will agree to an extended summer adjournment of congress.

Administration leaders in both the senate and house were pointing toward a month to six weeks cessation of legislative business as soon as the house acts upon the \$5,900,000,000 tax bill.

House leaders were said to be insistent that congress vote adjournment or recess for a definite period, so that all members could return to their homes without being accused of being away from Washington at a critical time.

War expenditures by the Government will total approximately \$47 billion this year, the Department of Commerce reports.

## New Yorkers To Get Fingerprinted Now

(International News Service) NEW YORK, July 11.—The drive to fingerprint New York's 7,500,000 residents for the purpose of identifying those who might be killed in an air raid got underway officially Friday with Mayor F. H. LaGuardia as the first volunteer.

In the presence of members of the War Identification Bureau, the mayor had his fingerprints taken for the new bureau's files by John

Ferrone, a Civil Service fingerprinting technician.

Other citizens will have their first opportunity to be fingerprinted next Monday night when the campaign will become citywide.

The fingerprinting will be purely voluntary and records taken by the Identification Bureau will be used simply for emergency purposes and would not be accessible to police or the F. B. I., it was said.

About 176,000 tons of iron and steel were collected in the United Kingdom during the first seven weeks of a salvage campaign, according to the Department of Commerce.
